

## ANTIOCH CHARTER ACADEMY II

The Learner-Centered Schools, Inc.

### TRAFFIC FLOW

2014 / 2015

Please observe the following guidelines in order to help improve safety and efficiency during the hectic minutes before and after school. **Please do not block driveways of the fairgrounds, fairgrounds offices or dirt parking lot.** The speed limit in all areas of the fairgrounds is 5 mph.

#### **Drop-off:**

You have two options in the morning.

- 1) Parents may drop students off at the cement area in front of the main gates to the fairgrounds. Please be considerate of others and do not linger to visit. Students should be prepared to exit cars immediately. There is no parking or driving inside the fairgrounds.
- 2) You may park in the dirt parking lot outside the fairgrounds and walk your student in to school. If you need to visit with other parents or drop in at the office for some business, you need to park and walk in to the fairgrounds.

#### **Pick-up:**

School dismisses at 3:00 (2:00 on Fridays, 12:00 on Minimum Days).

**Students need to be picked up no later than 3:15 (or 15 minutes after dismissal).** Pick-up also has two options:

- 1) You may park in the dirt parking lot and walk in to campus to pick up your child and then walk back out to the parking lot.
- 2) You may park in the dirt parking lot until you see your student standing on the cement pick-up area and then drive around the circle to pick them up. Please do not park along the red curb to wait for your student. As convenient as that is, it creates a safety hazard as it creates a third lane of traffic coming through the pick-up loop. Once again, please be considerate of others by keeping the line moving and not blocking any driveway. If you need to visit with a teacher or other parent, please park your car in the dirt parking lot and walk in.

I have read, and I understand the Traffic Flow Information
